

WIND ENERGY DENMARK

30-31 October 2018

On 30-31 October 2018, **WIND ENERGY DENMARK** will once again gather the Danish and international wind industry to discuss, showcase, and drive forward the technology development that has turned Denmark into a true powerhouse of wind energy.

Conference themes

The two-day-conference merges technology, science, and product development – and offers valuable insight and latest updates on themes within industrialization & standardization, Grid systems, integration & infrastructure, Operation & maintenance, and Next generation technologies.

Become a part of WIND ENERGY DENMARK 2018

– Get the attention of 400 expected conference participants from home and abroad.

If you are a supplier to the wind industry, – WIND ENERGY DENMARK is the place to be – and it is easy to exhibit. Book a concept stand of the desired size, send your personal graphics / logo for use on the back wall and bring your materials.

You can choose two different stand sizes:

- 5 sqm stand and 6 sqm printed backwall (please send your ready to print file).
Price DKK 16,500 for both days.
- 8 sqm stand and 8 sqm printed backwall (please send your ready to print file).
Price DKK 22,500 for both days.

This is included:

- 230 volt power outlet
- Two 2-day conference tickets
- Light grey carpet
- Spotlights
