

# HIGH-QUALITY TRAINING PROGRAMMES TO ENHANCE YOUR VETERINARY CAREER

For the duration of the Congress, we will be running a competition where everyone correctly answering the following question could win a 20% discount voucher off the price of one of our courses, tell us the correct answer to this question and visit us on **STAND P** to tell us the answer!

**Question: How many modules does our Small Animal Surgery Modular Programme contain?**

Also, those who answer the question correctly will be entered into a free prize draw to win a full modular programme! **Good luck!**

## A variety of different learning options

We provide one to two day short courses, as well as Modular Certificate Programmes from which you can gain recognised qualifications accredited by ESVPS and validated by HAU. You can start the Modular Certificate Programmes at Module One or join at any point during the Programme.

### Modular Certificate Programmes:

**Small Animal Surgery -**  
Starting June 2019

**Small Animal Medicine -**  
Starting September 2019

**Diagnostic Imaging -**  
Starting September 2019

[Improveinternational - Nordics](#)

Improve International is dedicated to developing careers, improving practice performance and driving advancements in veterinary education.

For over 20 years, and in over 20 countries, we have been providing veterinary professionals with the highest quality Continuing Education (CE) possible. A company which is still run by veterinarians, we are excited to be able to now deliver our Continuing Education courses in Denmark.

Transform your practice life by gaining a recognised qualification

## SMALL ANIMAL SURGERY

Starting June 2019

International Veterinary Academy, Greve Denmark

The most in-depth Small Animal Surgery Modular Certificate Programme which has been designed to be spread over two years, divides into a soft-tissue component in year one and an orthopaedic/spinal component in year two. The programme consists of 22 modules, with each one delivered by a world-renowned veterinary professional who will ensure you gain a greater level of expertise to take back to practice.

You will also have the opportunity to practise a wide variety of the surgical procedures you want to perfect in our state-of-the-art wet-lab environment.

### Practical modules

- Reconstructive skin surgery
- Gastrointestinal and urinary tract surgery
- Head and neck surgery
- Thoracic surgery
- Joint diseases of the forelimb
- Joint diseases of the hindlimb
- External fixation and bone grafting
- Internal fixation

Throughout the Programme you will benefit from receiving your own copy of the 'Veterinary Surgery textbook' by Tobias and Johnston and a total of five 'How to' DVD's by Professor Howard Seim of Colorado University which illustrate key surgical procedures.

## SMALL ANIMAL MEDICINE

Starting September 2019

Copenhagen, Denmark

The most comprehensive Small Animal Medicine Modular Certificate Programme which includes six practical modules allowing you to apply taught theory to practice. The 20 module Programme covers all of the major body systems and you will also receive a copy of the 'Textbook of Veterinary Internal Medicine' by Ettinger and Feldman to assist with your learning.

As well as the chance to practise the theory, you will also benefit from other study resources including videos and case-based studies.

### Practical components:

- Clinical pathology and laboratory medicine
- Emergency medicine
- Cytology
- Dermatology
- Diagnostic imaging
- Ophthalmology

## DIAGNOSTIC IMAGING

Starting September 2019

International Veterinary Academy, Greve, Denmark

Enhance your skills in ultrasonography, radiology and CT/MRI in a series of 14 interactive modules.

The fundamental principles of all the imaging modalities including their applications will be covered in detail. Case-based material will feature strongly throughout this Modular Certificate Programme. The modules will assist you in consolidating your knowledge of the key imaging modalities and in choosing the most clinically appropriate diagnostic method.
