

// DAYS OF KNOWLEDGE 2019

POWERED BY DIRECTIONS

CONFERENCE PURPOSE

Days of Knowledge is a new Dynamics 365 Business Central Conference held in Odense, Denmark.

The two-day conference offers a combination of keynote presentations, workshops, group and town hall sessions – all with Business Central and related products as the main topic.

The purpose of Days of Knowledge is to host a local conference for the Nordic countries. Inviting the world's leading industry experts the conference offers priceless knowledge about the latest developments within Dynamics 365 Business Central and the surrounding products for consultants, developers and related employees in the Dynamics 365 BC world.

By bringing in industry experts, the aim is to both present the latest knowledge and to educate participants within different existing application areas of Business Central.

Offering a local and affordable alternative, participating companies have the chance to send all employees for two days packed with learning opportunities – not just their top performers.

The aim is to host a conference for up to 250 delegates primarily from the Nordic countries, but everyone is welcome.
