## Status of progress and procurement 9th September 2021

Christian Lundhus & Hakim Naceur

## Joint Venture Set-up

## **Joint Venture Set-up**

Joint Venture – an International Team

Designer: COWI

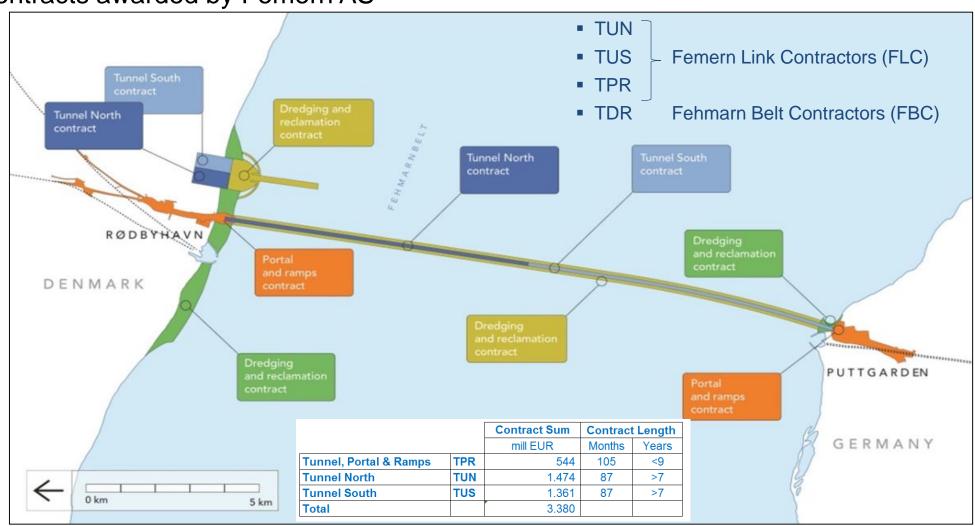

## **Project Overview**

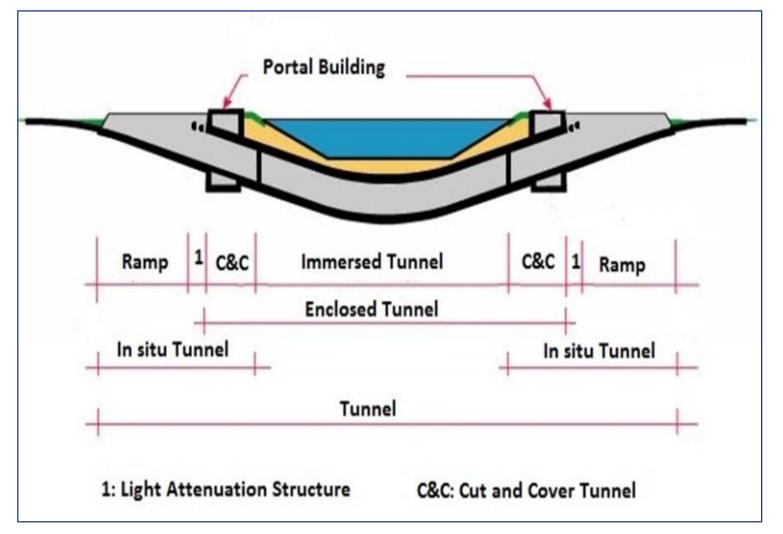

## **Project Overview**

Main Contracts awarded by Femern AS

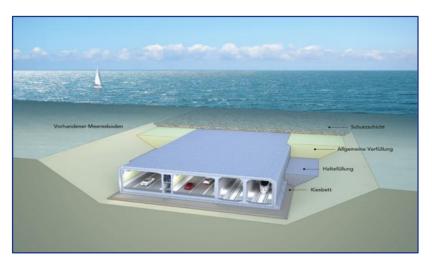

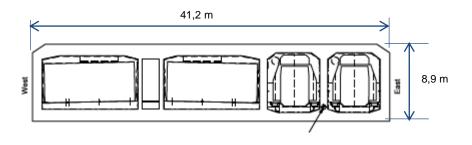

# Scope of Work TUN & TUS

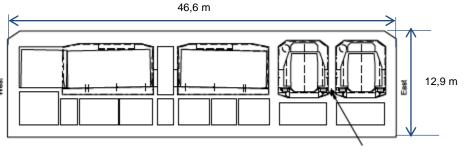

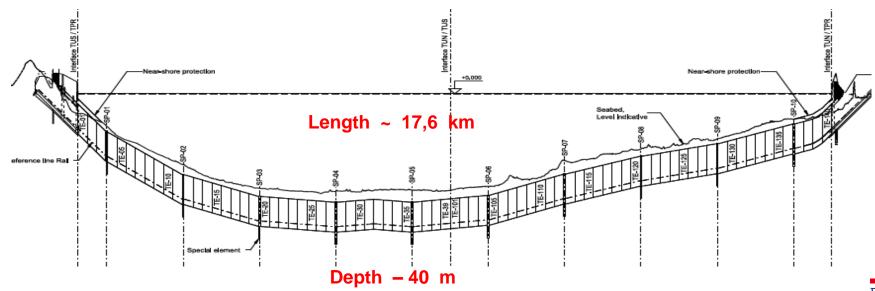

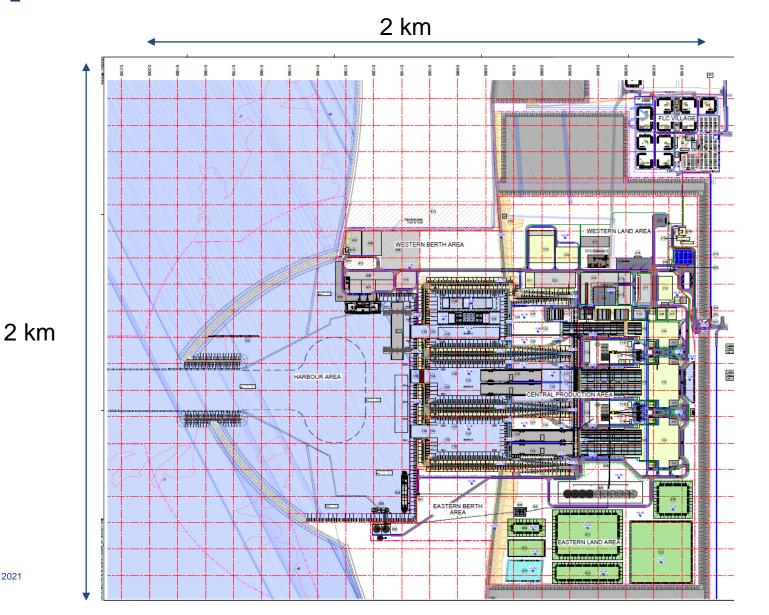

Standard elements (217 m): 79 units

Spécial element (39 m) : 10 units

Weight: 73.000 tons

Village - 1300 persons

Main Office - 200 persons

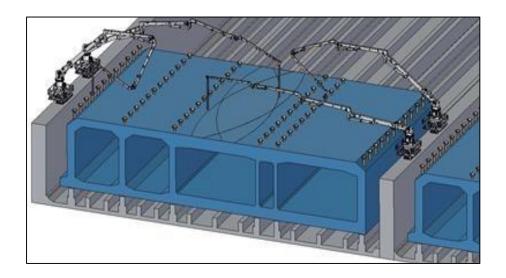

- 1 Production line Special elements
- 5 Production lines Standard elements
- 3 Production halls 80.000 m2
- 6 batching plants

#### **Concrete works**

- Concrete production on site (aggregates, sand, cement,...)
- Reinforcement
- Assembling (on site and/or prefabricated parts)

#### **Outfitting works**

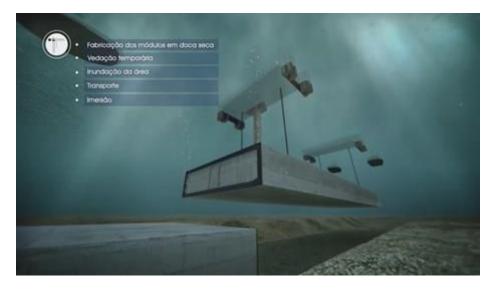

- Prestressing
- Fire protection
- End frame
- Gina joint
- Bulkhead installation
- Ballast tank installation

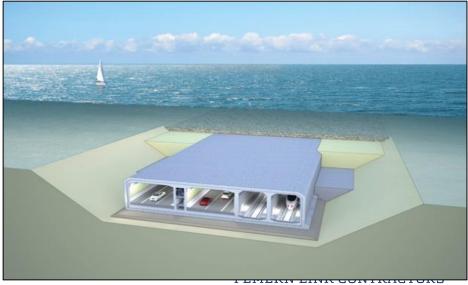

#### **Marine Works**

- Towing & immersion of Tunnel elements
- Maintenance dredging of the harbour/access channel
- Trench cleaning (before immersion)
- Tunnel foundation installation
- Backfill on side of tunnel elements
- Protection layer ( armour stones ) on top and beside tunnel element roof

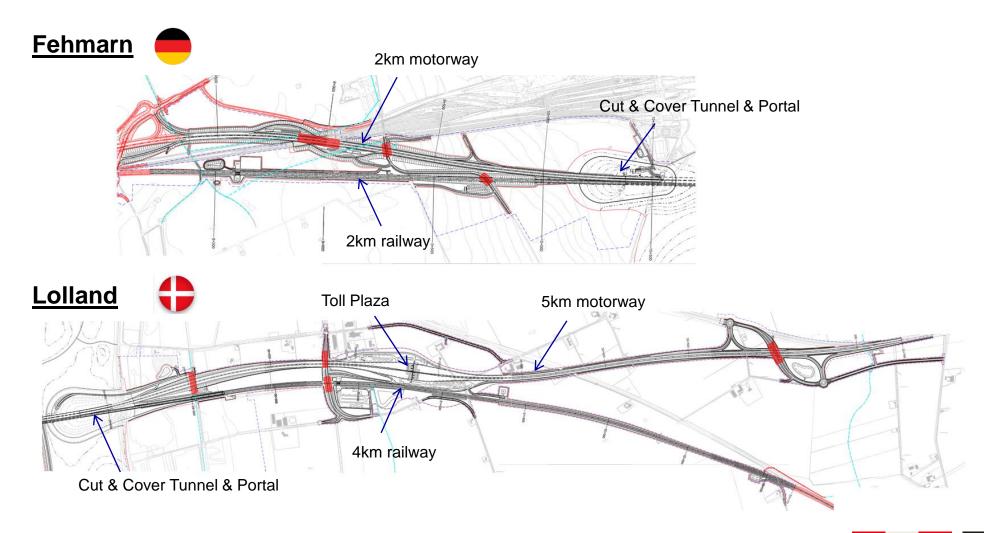

#### **Activities inside the tunnel**

- Alignment of the tunnel element following immersion
- Drainage and ballast concrete
- Removal of ballast tank
- Railway walkway
- Immersion joints between tunnel elements
- Removal of bulkheads
- Other finishing works (cut prestressing, fire protection, joints injection ...)
- Closure joint of the tunnel

### Lolland {

#### **Tunnel**

- Cut-and-cover tunnel 160m
- Attennuation structure 100m
- Road Ramp 190m
- Rail Ramp 860m
- Portal Building
- Sea-cut off structure

#### **Other Structures**

- Fauna passages 2 nos
- Bridges 4 nos
- Culverts 2 nos
- Gantries for signs etc. 25 nos
- Substation platform and flood wall

#### **Fehmarn**

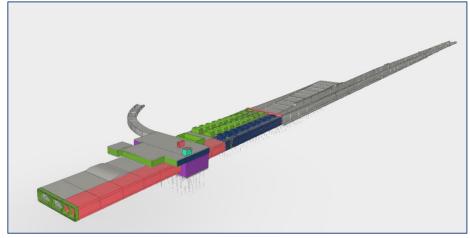

#### **Tunnel**

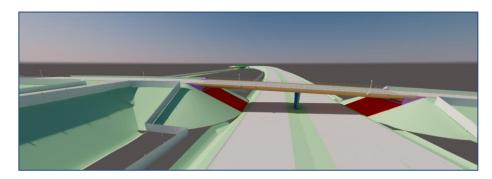

- Cut-and-cover tunnel 450m
- Attennuation structure 150m
- Road Ramp 80m
- Rail Ramp 390m
- Portal Building
- Sea-cut off structure

#### **Other Structures**

- Fauna passages 1 nos
- Bridges 3 nos
- Gantries for signs etc. 13 nos

IST, Portal and Ramp Lolland

DB2 - Lolland

## Lolland 🛟

#### **Buildings**

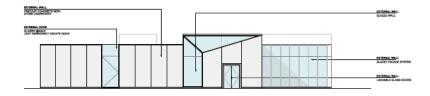

- Link Control Center 1300m2
- Toll Administration Building 1000m2
- Authorities Building East 1100m2
- Authorities Building West 1100m2

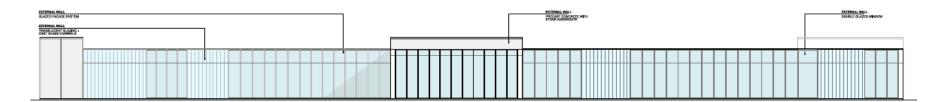

#### **Fehmarn**

#### **Buildings**

- Wellfare Building 90m2
- Wellfare Building 90m2

#### Lolland

#### **Roads / Pavement Areas**

- Fixed Link Highway 4.8km
- Ottelundevej Interchange 1.9km
- Sideroads 3.6km
- Access Road 4.8km
- Parking at Operations area
- Heli Pad

#### **Fehmarn**

#### **Roads / Pavement Areas**

- Fixed Link Highway 2.0km
- Exit/Entry ramps 0.6km
- Sideroads 1.6km
- Access Road 2.3km
- Parking areas at wellfare buildings

### Lolland 🛟

#### **Earthworks**

- for landside roads
- for railway 4.2km
- for bowl portal area
- Permanent mound to protect tunnel
- Temporary dyke

#### Landscaping

Topsoil, plants, grass, green roofs

#### **Fencing**

- Livestock, wildlife, amphibian fencing
- Security fencing & gates

#### **Fehmarn**

#### **Earthworks**

- for landside roads
- for railway 2.2km
- for bowl portal area
- Permanent mound to protect tunnel
- Temporary dyke

#### Landscaping

Topsoil, plants, grass, green roofs

#### **Fencing**

- Wildlife, amphibian fencing
- Security fencing & gates

#### **Tunnel Interior Works**

- Concrete barriers
- Fire protection cladding
- Road pavement 19 km

#### **Parallel Works**

- Install temp. gas detection, fire alarm, CCTV, comms, radio
- Install temp. power and ventilation systems
- Site security
- First aid facility & Fire Brigade
- Traffic control
- Manage other Contractiors Inside tunnel

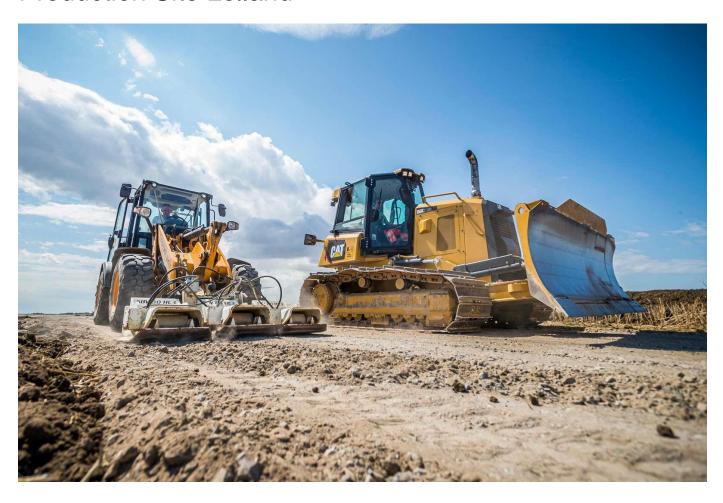

#### Production Site Lolland

- Geotechnical Investigations (also Germany)
- Earthworks
- Roads
- Utilities
- Drainage
- Fencing
- Casting Foundations
- Paving
- Sheetpiling

Production Site Lolland

- Earthworks
- Roads
- Utilities
- Drainage
- Fencing
- Casting Foundations
- Paving
- Sheetpiling

#### Production Site Lolland

- The first of 6 batching plants erected
- Testing of concrete mix on-going

## **Site Facilities – Temporary offices**

Temporary office established

06/2021

## **Site Facilities - Main offices**

07/2021

• Main office being erected

## **Site Facilities - Village**

Village - 09/2021

• Village modules being erected

## **Site Facilities - Village**

• Village modules being erected

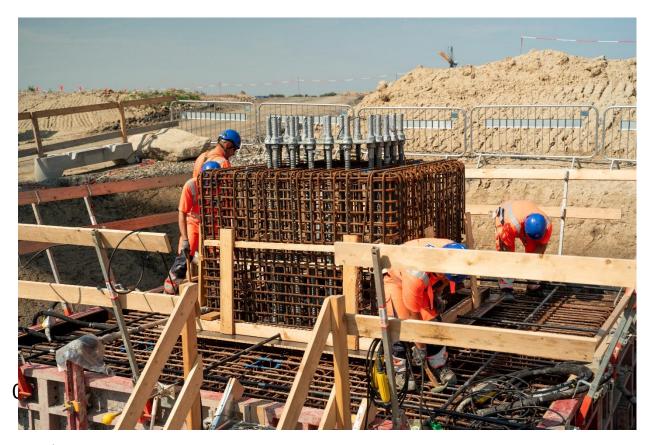

## Mock-up / FSTC - area

• Full Scale Trial Cast / Mock-up

07/2021

## **Batching plant - Concrete production**

08/2021

Concrete Foundations for Hall

## **Sheetpiles**

• Sheetpiling for basins

08/2021

## **Procurement Status**

#### Production facilites & buildings Lolland - contracts

• 3 production halls - 80.000 m2 - Give Steel (DK)

29 overhead cranes - Give Steel (DK)

• 6 Batching Plants - 1 delivered - SBM (A)

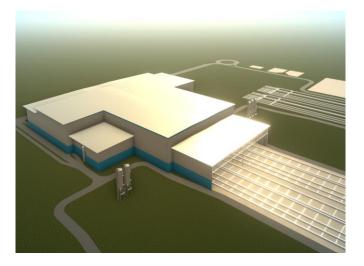

Forms for standard elements - Peri (D/DK)

Hydraulic Jacks - skidding of elements - Hebetec (CH)

Temporary office - CP (DK)

Main office - CMT(Metrobyggeri) / CP

Village - Adopteo (S)

#### Site Installation Lolland

- Fill materials (earthworks)
- Concrete Aggregates
- Cement/flyash
- Site Power
- PE welding
- Fences and gates- part I
- Security og gate control
- Cameras etc

- Ejgil Jensen
- Dansk Natursten
- Aalborg Portland
- Aktiv El
- Johnny's VVS
- PIT Hegn
- LF Vagt
- Smart Guard

#### Production facilites Lolland - contracts

	Concrete pumps	- Putzmeister( D)
--	----------------	-------------------

Form - special elements - Meva (D)

4 nos. tent hallsOB Wiik (N)

Air pressure setup - Atlas Copco (DK)

Pumps - Grundfoss (DK)

Conveyor System for materials - under negotiation

Water cleanig system - under negotiation

Access control - under negotiation

Cement silos - under tender

#### Machines, cranes etc

5 tower cranes
JMM / Normas / Liebherr (DK/D)

2 mobile cranes og 1 crawler crane - Liebherr (D/DK)

4 concrete mixer trucks
Stetter/Mercedes (D)

#### Pipeline:

- Telescope lifts
- Fork lifts
- Trucks w. Crane
- Trailers
- Mobile concrete pumps

#### Materials & deliverables for the Tunnel

Tunnel Joints (Gina/Omega)
Trelleborg (S / NL)

Prestressing - under negotiation

Fireprotection (1.000.000 m2)- under negotiation

Membrane – Special elements - under negotiation

#### Pipeline - concrete:

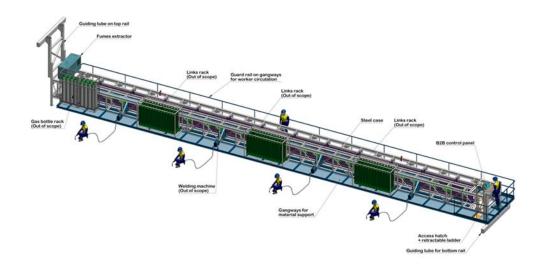

- Cement Flyash Slag
- Aggregates coarse and sand

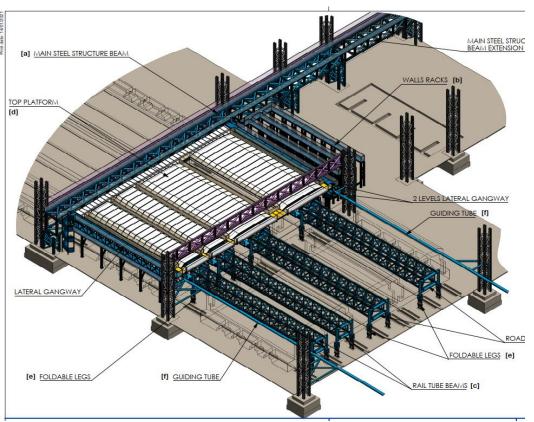

#### 3.000.000 m3

#### Specifically designed

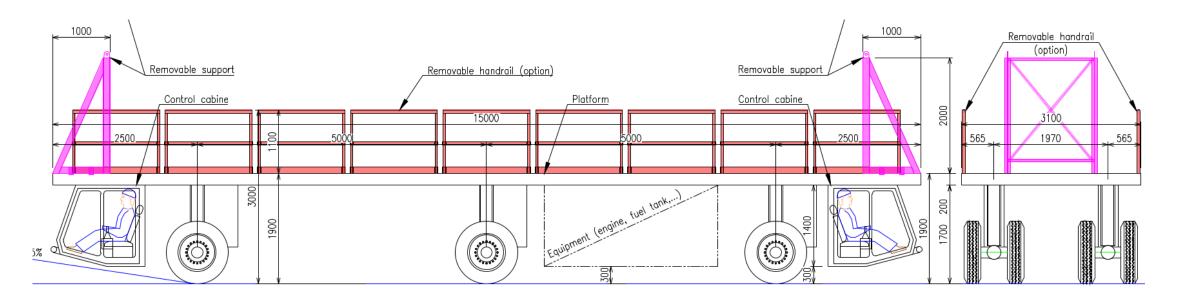

- Lasca contract NRS(N)
- B2B under negotiation

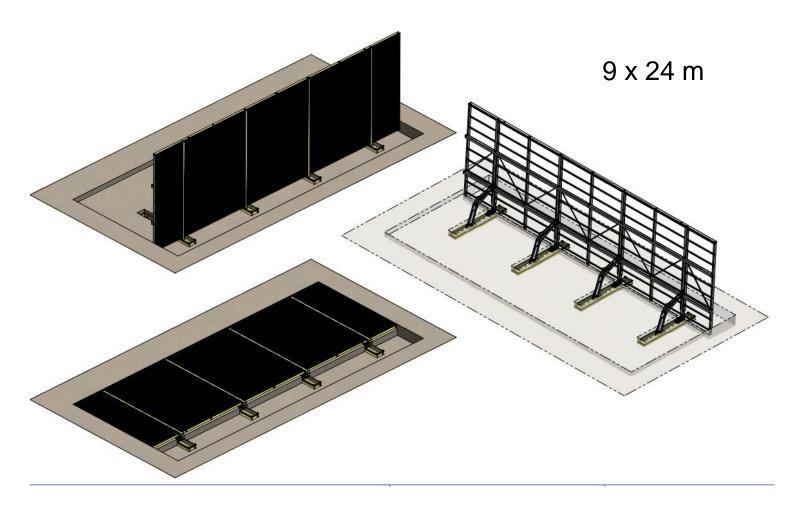

#### Specifically designed

Smart trailers – concept design

#### Specifically designed

Tilting frames – concept design

#### Specifically designed

Transfer tables - approx 750 m

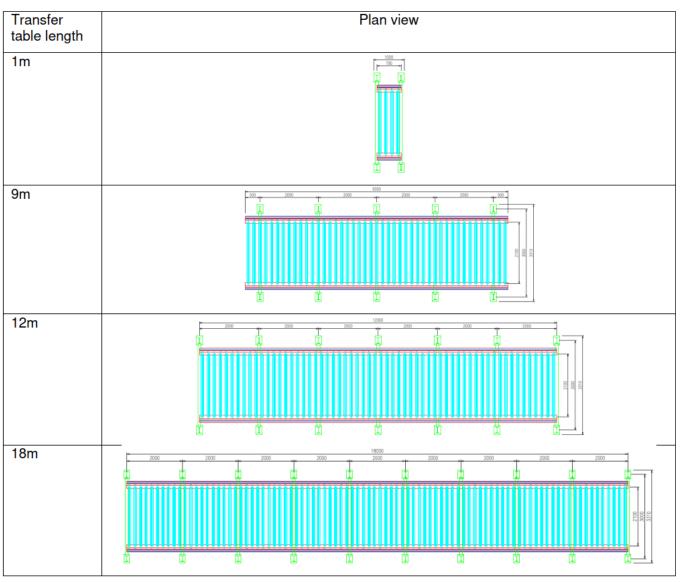

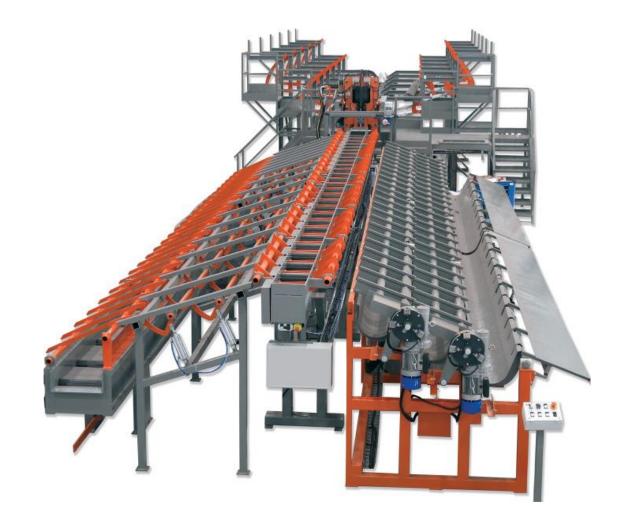

Table 3: Transfer table lengths

#### Specifically designed

#### Cut & Bend equipment

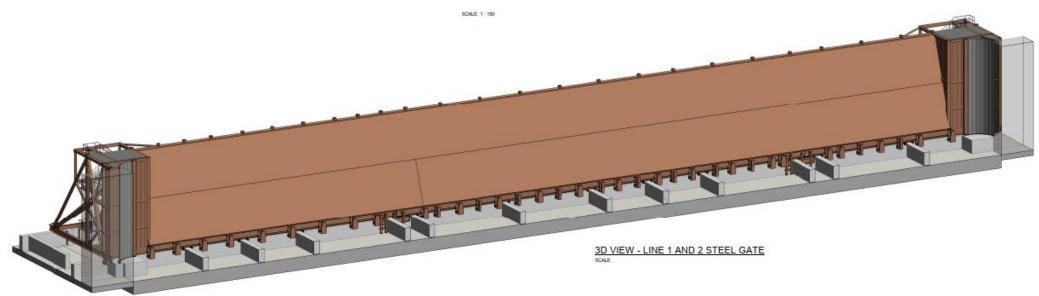

- Steel selves
- Lifting gear
- Fixtures
- etc

## Ongoing & upcoming tenders - TUX

- Pump system for basins
- Bulkheads

- design on going
- design on going
- Sliding gate for basins (110x10x10m) Steel
- in tender

## Framework agreements

Day to day business – agreements made

ToolsAO

Building materials etc. - Stark

Lifting gearCarl Stahl

Working cloths (PPE)- Veltuff

Safety equipment - ICM

Fixings - special tools - Hilti

Machine rental - GSV

Office modules - CP

Container waste - Marius Pedersen

Concrete accessories - Haucon

Framework agreement out for tender regularly

Suppliers shall provide a high service level

## **Coming Up**

#### Service agreements

- Bus services
- Catering
- Cleaning
- Washing of clothing
- Extended Security Services
- Housing
- Ambulance/health service
- etc

## Safety - highest priority

**FLC** requirements to Suppliers

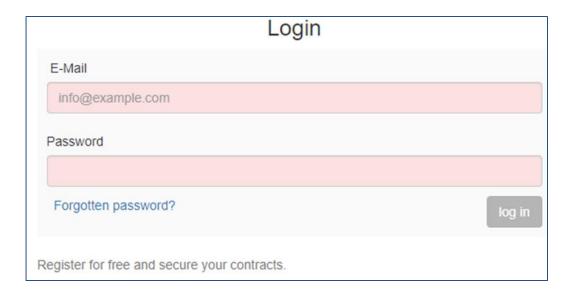

## How do you become a subcontractor or supplier?

## www.femernlinkcontractors.com

TAB - PROCUREMENT

## Thank you
